GUAM Health Care Application

We are currently working on getting all employees health coverage in Guam we have to have a certain number of SESC full time employees to do so. We will have this within a few weeks, once the number of employees reach their minimum requirement you will be able to find the application for enrollment here.

In the meantime, please provide us with any information if you are covered with another insurance program. And please be on the lookout for any forms we need to have you fill out in regard to health care coverage.

Thank you,

HR Department.
